WELCOME WINTER!!

The cold months are here! Below you will find several tips to help you to have the optimal winter months in your apartment.

1. If you have a thermostat or zone valve, keep it set on the temperature you'll be most comfortable in and allow 3 hours from the time you change it for the heat to adjust properly through out the entire apartment.
2. Keep furniture 1 foot away from the baseboards to ensure heat can flow freely.
3. Cover your AC and any windows you do not intend to open with plastic to reduce cold air drafts.
4. Following a hot shower, crack your window and turn on the exhaust fan to allow the bathroom to properly ventilate and prevent any natural mold growth. If mold growth begins from excessive moisture, you can clean the surface with bleach and a rag to prevent penetration through the drywall.

60 years since our founding as Burstyn Group, success is still our goal. As a company in the customer service industry we understand that success entails many things on our part. There have been many changes made within the company over the past few years and we appreciate the cooperation and understanding from all of our valued residents. We'd love to hear your feedback so please add us on facebook ("Winding Brook") or fill out a survey next time you visit the local rental office!

Have unwanted guests (pests) in your apartment?! Get rid of them with the help of our licensed exterminator! We offer exterminations twice a month free of charge to our cooperating residents. Sign up is easy, all you have to do is sign a form in the office. You can also help prevent this issue by keeping all food items in upper cabinets, transferring all bag/box food into plastic tupperware containers. and minimizing clutter.

REMINDERS
